

Conflict Minerals

Dear customer,

According to section 1502 of Dodd-Frank Act companies which are listed on the US stock exchange are obligated to provide details of usage of so called "conflict minerals". These are tantalum, tin, tungsten and gold (=3TG) coming from the Democratic Republic of the Congo or an adjoining country.

We at Haberl Electronic are aware of our social responsibility regarding environment, safety, health and observance of human rights and transports this along the own supply chain. With our behavior in business we stand up for a peaceful and sustainable usage of our worldwide resources. Neither we do direct imports of conflict minerals nor do we have any information that minerals with origin of the countries mentioned above are in our products.

We ask for your understanding that we will not fill out any questionnaire due to a rising amount of requests. We hope that this declaration includes the required information and thank you for your confidence in us and the excellent level of cooperation.

Best regards

A handwritten signature in blue ink, appearing to be 'H. Haberl', is written over the 'Best regards' text.

Haberl Electronic GmbH & Co. KG
